

## Renault TWIZY

Plug into the positive energy

## Renault TWIZY

# Times are changing

TWIZY is a two-seater, compact electric vehicle with zero emissions in use - like nothing else on the road today. It is powered by a 17hp electric motor with a smooth one-speed automatic transmission, and a light and compact lithium-ion battery pack.

TWIZY is available in two versions; Expression – TWIZY in its simplest form, and Dynamique – with the addition of gloss alloy wheels and two-toned colour collections.

With a few simple, daring ideas and a decade of research into cleaner energy, TWIZY brings a new lease of life to better living and more fun than you'd ever imagine.

## Or maybe it's...

# Dynamique

TWIZY Dynamique considers design down to the finest details with; two-toned colour collections, coloured mirrors and diamond cut alloy wheels - the ultimate finish. With TWIZY Dynamique, chic goes hand in hand with fun.

## Colours

Lagoon Blue

Flame Orange Diamond Black\* Snow White\*

\*Metallic paint. Image shows optional scissor doors.

## TWIZY features

#### Expression

#### Technology

Electronic engine immobiliser Range indicator with eco score Regenerative braking Battery econometer Battery gauge (%) Integrated 3m cable for 3-pin domestic socket Automatic transmission (reduction gear) Daytime running lights Drive and speed display

#### Interior

Airbags - driver Lockable steering column Seatbelts - 3-point rear seatbelt Seatbelts - 4-point front seatbelt Seats - front seat with anti-submarining Headrest - built-in rear headrest Seats - adjustable front seat with built-in headrest Behind rear seat storage - lockable 311 Heated windscreen - quick demist

#### Exterior

Disc brakes - front and rear Wind deflector - front lateral Grey 'Snowflake' wheel trim

#### Dynamique

Additional standard equipment to expression (includes core features above)

#### Interior

Exterio

Floor mats - driver and passenger

#### A choice of 14 colour collections

Alloy wheels - 13" 'Diamond' gloss black / orange / blue (depending on colour collection)

\* The Renault TWIZY range has been measured and certified to 62 miles by UTAC (Union Technique de l'Automobile du Motocycle et du Cycle) on the ECE-15 cycle. Exactly as with petrol and diesel cars, when driven under real conditions, this range will vary according to: speed, driving style, the terrain of the road, the use of electric accessories. Most of these factors can be influenced directly by the driver so as to help maximise the range of the Renault TWIZY. For example, the range will be around 50 miles using eco driving principles and 37 miles when driven under severe conditions.

## TWIZY comfort

No room for jealousy aboard the TWIZY: two people, one set of welcoming and adaptable comforts. While some like it completely open, others have a little cocoon in mind, which is why TWIZY offers optional scissor doors and a blanket for both driver and passenger. For a flood of natural light and an unrestricted panoramic view, the clear sky roof is an optional extra, too. Also available is a highly practical accessory: the hands free Bluetooth<sup>®</sup>\* kit allows you to stay connected on the go. TWIZY, a truly outstanding re-definition of openness.

### TWIZY storage

Although the cabin is compact, no space is wasted. Two gloveboxes are provided – one can be locked – and a handy 31-litre storage point behind the rear seat. Storage nets hold smaller items.

## TWIZY technology

TWIZY comes complete with a 3m extending spiral charging cable, which is stored beneath the flap at the front of the vehicle. Recharging is simple, using a standard three-pin plug to connect the vehicle to any 220V 10A domestic or workplace electricity supply. A full charge takes around 3.5 hours and delivers a real-world range of 50 miles - depending on driving conditions, your driving style and the landscape. Regenerative braking and an automatic gearbox can conserve and even increase this range. As with the entire electric range, the dashboard displays remaining battery life information, so you'll always know where you stand.

## TWIZY safety

Being a four-wheeled vehicle – classed as a heavy quadricycle – TWIZY is inherently more stable and offers greater protection than a scooter or motorcycle. Its height and curvy shape make it much more visible to other road users. Disc brakes all round and a low centre of gravity give good stopping power and fundamental stability. At the front, a deformable structure provides protection in the event of a collision, while the outboard wheels and lateral beams either side of the chassis give side protection. The driver is held securely in a four-point seatbelt, with a three-point belt for the passenger, and in the event of a front-end collision, the driver's airbag will deploy. The front seat also has an anti-submarining design.

### Accessories

TWIZY windows: benefit from total protection in poor weather conditions thanks to this effective, high-quality accessory. These windows are fast and easy to fit at home making TWIZY even more versatile than ever.

**Parrot MK9100 Bluetooth \* kit:** a unique hands-free kit, combining the latest in communication technology with a range of music functions, including; wireless remote control and colour display, voice synthesiser and voice recognition, and MP3 iPod connectivity.

#### INDIVIDUAL ACCESSORIES

Protection and Comfort
Driver and passenger blanket
Front mudflaps
Protective vehicle cover
Rear body coloured parking sensors
Steering wheel lock
Storage nets
TWIZY windows
Technology
Parrot Bluetooth* kit with full audio and speakers

\*For compatible devices, please refer to https://www.renault.co.uk/services/multimedia/bluetooth-compatibility.html Accessories are fitted post-production and may have an impact on real world fuel (actual) consumption and CO<sub>2</sub> figures. For prices, please refer to the Renault Car Price Guide available at your local dealer and on www.renault.co.uk

\* The Renault TWIZY range has been measured and certified to 62 miles by UTAC (Union Technique de l'Automobile du Motocycle et du Cycle) on the ECE-15 cycle. Exactly as with petrol and diesel cars, when driven under real conditions, this range will vary according to: speed, driving style, the terrain of the road, the use of electric accessories. Most of these factors can be influenced directly by the driver so as to help maximise the range of the Renault TWIZY. For example, the range will be around 50 miles using eco driving principles and 37 miles when driven under severe conditions.

## Renault Services

#### **3 YEARS WARRANTY**

Your Renault TWIZY is covered by a warranty package for up to 3 years or 31,000 mile which ever comes first, from the date of registration. Your Renault electric Dealer will repair or replace parts that are found to have a material or assembly defect that is recognised by Renault, free of charge. The paintwork warranty runs for 2 years and the anti-corrosion for 6 years.

Although every effort has been made to ensure that the information contained within this brochure is as accurate and up to date as possible, Eurocar Ltd. reserves the right to modify its models without notice, including their characteristics, specifications, equipment and accessories. Brochures inevitably become out of date or inaccurate in some respects, in that such characteristics, specifications equipment, or accessories may be changed after the publication date given below and can differ from the descriptions given or the photos displayed. It is therefore necessary to check with your Renault Dealer before purchasing any product that the characteristics, specifications date March 2021.
