All-new Renault ZOE

ZE

All-new ZOE
redesigns mobility!

ZOE like never before

All-new ZOE expresses its style with even more character. To its successful smooth lines, All-new ZOE adds a new C-shaped 100% LED brand light, fog lamps and a more distinctive grille. The rear lights gain character with an LED light beam that expands the bodywork. Under the bonnet, with its sculpted contours that converge to a larger logo, a new, more powerful engine increases driving pleasure. The new B Mode enriches the experience by allowing increased deceleration for reduced use of the brake pedal.

Simply electric

Go further, with more freedom

Limits are made to be pushed back. All-new ZOE extends its driving range up to 395 km WLTP*. Drive all week long on a single charge, with total peace of mind. Manage consumption and energy recovery when you decelerate, thanks to the power saver gauge on the 10" driver's screen.

*depending on versions and equipment.

WLTP (Worldwide Harmonized Light Vehicles Test Procedures): this protocol measures consumption and driving range results that are very close to those found under real conditions of use.

Making electric driving a pleasure

If you love driving ZOE, then driving All-new ZOE will be an absolute joy. With its new electric 100 kW (135 hp) R135 electric engine, All-new ZOE offers you an even more spectacular dynamic performance. It can reach top speeds of 140 km/h, and makes overtaking a breeze. Discover a whole new serenity. Using the one-touch control on the gear lever (E-shifter), switch to B mode and activate increased deceleration simply by releasing the accelerator, for a more relaxed driving experience that makes less use of the brake pedal.

INTENS (ZEN+)

Active & passive safety

- Front fog lamps
- Driving and driving assistance
- Rear parking sensors
- Front and rear parking sensors
- Blind spot warning - detection of danger in blind spots. Alert in the side door mirrors.
- Speeding alert
- Electrochrome rear-view mirror

Comfort

- Automatic climate control with eco function
- One-touch driver-seat window control, electric rear windows
- Electric folding door mirrors
- Manual lumbar settings on driver seat
- Storage and features

Audio et multimédia

- RENAULT EASY CONNECT - connected services
- Connected navigation services - 3 years included: Google search for places of interest, live traffic info, weather, fuel prices, areas requiring vigilance (depending on the country)

Special Z.E. equipment

Exterior design

- Tinted windows and rear screen
- 16" Elective diamond-cut alloy wheel rims with 16" Michelin Primacy 4-E tyres

Interior design

- Fabric seats/dark plastic-coated fabric (Intens Spirit)
- Black fabric dashboard panel

Optional

- Rear-view camera
- Hands-free parking with front, rear and side sensors and rear-view camera
- Heated steering wheel
- Heated front driver and passenger seats
- EASY LINK 9.3" with Navigation - Radio and Navigation with 9.3" high resolution touchscreen, brilliant anti-reflect finish - Compatible with Android Auto™ and Apple CarPlay™ - 6 speakers, Bluetooth , 2 USB, 1 AUX port - Connected navigation services - Maps of Europe - Auto-Update Service

- Bose® Sound System, compatible with Android Auto™, DAB, 2 neodymium woofers, 2 rear full-range speakers, 2 neodymium tweeter speakers, and 1 Nd™ Richbass™ woofer in a 6.2-L customised Waveguide enclosure in the boot
- Digital radio reception (DAB+ and traditional FM/AM)
- Combo CCS DC (50 kW) charger
- Mode 2, 6.5-m-long cable in black
- 17" Elington diamond-cut alloy wheel rims with 17" Michelin Primacy 4 tyres
- Metallic paint
- Painted smooth black door mirrors
- Black Riviera® leather seat
- Dashboard panel and door medallion in black leatherette
- Full-grain leather steering wheel
- Premium ZOE floor mats

Upholstry & wheel rims

Black leather*

17" Elington diamond-cut alloy wheel rims

BOSE® equipment

Music box

Delivering sound in its purest form, the premium Bose® audio system includes six high-performance speakers and a compact subwoofer. The two 2.5 cm tweeter speakers on the dashboard provide a clear, balanced sound; the two speakers in the front doors and two more at the rear doors project a rich, full sound. The subwoofer in the boot completes the sound experience with a realistic and deep bass. Perfect acoustic quality.

1. Two-tier floor for cable storage

Fully integrated to fit the boot, it offers several compartments with sufficient space to store 2 charging cables.

A compartment has been specially designed to protect the BOSE® subwoofer.

No more cable clutter and no more mess in the boot. Lift the bottom of your boot for easier access to the items inside.

The removable floor is hinged and includes a handle for easy access to its contents.

It also enables you to organise small objects (i.e.: safety kit) if it contains only one cable or if there is no Bose® subwoofer.

2. Front armrest

Improves driving comfort and provides an additional storage space.

Space for storing small items (trolley tokens, coins).

Available in three finishes: black fabric, black leatherette Recytex fabric.

3. Home charging station + Charging cable

This station makes it possible for you to charge your vehicle up to six times faster than a conventional socket. Charge your vehicle faster than your infrastructure would otherwise allow, without overloading it.

It manages peak and off-peak times, can be controlled remotely, and allows you to monitor your power consumption in real time.

This cable is required to recharge the electric vehicle on home charging stations or public infrastructure.

4. Illuminated door sills

Elegance and modernity every time you open a door. White time-delayed lighting on your sills draws attention during the day and at night. Their aluminium finish with the Renault logo also protects your vehicle's doors.

Sold in pairs.

"From the design stage in our studios to manufacturing, to distribution via our network, we are guided by the search for quality".

Laurens van den Acker - Directeur Design Industriel - Groupe Renault

Continuous improvement

Pioneer and leader of electric mobility in Europe, Renault has acquired a unique understanding of its customers' needs and expectations. ZOE has undergone continuous improvements since its launch in 2012. From an actual driving range of 150 km, it expanded its range to 300 km under real-life conditions with the introduction in 2017 of its new Z.E. 40 battery. A year later, ZOE was enhanced with a new R110 engine for even greater versatility and a heightened driving experience. Today, the top-selling electric city car in Europe is going one step further with another transformation.

All-new ZOE: Further, faster, easier

All-new ZOE continues to innovate with its Z.E. 50 battery, bringing its driving range to up to 395 km WLTP. It is also introducing quick charge (DC) up to 50 kW, to recover 150 km in 30 minutes. This feature adds to the versatility of its Caméléon™ 22-kW charger, the only one of its kind on the market, which draws the maximum benefit from alternate current public stations. Backed by partnerships with TomTom and Google, the connected navigation makes it easy to find addresses or charging stations in real time. Thanks to its Auto-Update service, its maps are updated automatically. In operation since the previous generation of ZOE, the MY Renault app benefits from the Group's expertise in connected services.

All-new ZOE, a dynamic and peaceful day-to-day

All-new ZOE is the fruit of optimisation work carried out by Renault engineers on all aspects of the vehicle. With more than 100,000 ZOE's fitted with engines manufactured in Cléon, France, Renault's know-how has reached an unprecedented peak. The new R135 engine offers optimum performance and total versatility on all road networks. Driving pleasure—the number one reason to buy ZOE—has been enhanced once again, with acceleration power rivalling that of a city sports car. At the same time, the B mode makes driving easier by reducing the use of the brake. Your journeys are made even safer thanks to a number of driving assistance systems.

All-new ZOE, quality that can't help but be noticed

Iconic model of the Renault brand, ZOE continues to captivate the masses with its design. Its 100% LED headlights integrate the C-shaped brand light. Inside, the revolution continues... Bold and technologically-advanced, All-new ZOE unveils a new 100% recycled fabric covering the upholstery and part of the passenger compartment, in line with the philosophy of the electric vehicle. Widescreens inspired by the world of smartphones, with high-level brightness and contrast, are fully customisable. Feel at home on board All-new ZOE.
